It is possible that the company's future financial performance may differ from expectations due to a variety of factors including, but not limited to the following: (1) the company's ability to obtain the benefits it anticipates from the Corporate Modernization, (2) risks inherent in, and potentially adverse developments related to, the Chapter 11 bankruptcy proceeding involving the company's wholly owned subsidiary Paddock Enterprises, LLC ("Paddock"), that could adversely affect the company and the company's liquidity or results of operations, including risks from asbestos-related claimant representatives asserting claims against the company and potential for litigation and payment demands against us by such representatives and other third parties, (3) the company's ability to accurately estimate its total asbestos-related liability or to control the timing and occurrence of events related to outstanding asbestos-related claims, including but not limited to the company's obligations to make payments to resolve such claims under the terms of its support agreement with Paddock, (4) the company's ability to manage its cost structure, including its success in implementing restructuring or other plans aimed at improving the company's operating efficiency and working capital management, achieving cost savings, and remaining well-positioned to address the company's legacy liabilities, (5) the company's ability to acquire or divest businesses, acquire and expand plants, integrate operations of acquired businesses and achieve expected benefits from acquisitions, divestitures or expansions, (6) the company's ability to achieve its strategic plan, (7) foreign currency fluctuations relative to the U.S. dollar, (8) changes in capital availability or cost, including interest rate fluctuations and the ability of the company to refinance debt at favorable terms, (9) the general political, economic and competitive conditions in markets and countries where the company has operations, including uncertainties related to Brexit, economic and social conditions, disruptions in the supply chain, competitive pricing pressures, inflation or deflation, changes in tax rates and laws, natural disasters, weather, pandemics and outbreaks of contagious diseases and other adverse public health developments, such as COVID-19, (10) the company's ability to generate sufficient future cash flows to ensure the company's goodwill is not impaired, (11) consumer preferences for alternative forms of packaging, (12) cost and availability of raw materials, labor, energy and transportation, (13) consolidation among competitors and customers, (14) unanticipated expenditures with respect to data privacy, environmental, safety and health laws, (15) unanticipated operational disruptions, including higher capital spending, (16) the company's ability to further develop its sales, marketing and product development capabilities, (17) the failure of the company's joint venture partners to meet their obligations or commit additional capital to the joint venture, (18) the ability of the company and the third parties on which it relies for information technology system support to prevent and detect security breaches related to cybersecurity and data privacy, (19) changes in U.S. trade policies, and the other risk factors discussed in the company's Annual Report on Form 10-K for the year ended December 31, 2019 and any subsequently filed Annual Report on Form 10-K, Quarterly Reports on Form 10-Q or the company's other filings with the Securities and Exchange Commission.

It is not possible to foresee or identify all such factors. Any forward-looking statements in this document are based on certain assumptions and analyses made by the company in light of its experience and perception of historical trends, current conditions, expected future developments, and other factors it believes are appropriate in the circumstances.
